Policy #16 to define the policy for incontinent persons using the swimming pool and spa.

Swimming Pool:

In the event of failure using swim diapers, waterproof pants or other protective clothing resulting in gross fecal contamination of the pool, the individual owner / guest of owner or supervising owner/guest of an infant or child shall attempt to limit further contamination by immediately exiting the swimming pool and by removing any solid fecal material from the swimming pool, if possible.

The owner or owner whose guest causing the episode of gross fecal contamination of the swimming pool, shall be responsible for any and all costs related to decontamination of the pool charged by the association’s pool maintenance contractor. Charges shall be added to the responsible owner’s association account, payable within 30 days of the billing.

Spa:

In the event of failure of swim diapers, waterproof pants or other protective clothing resulting in gross fecal contamination of the spa, the individual owner/guest of owner shall attempt to limit further contamination by immediately exiting the spa and by removing any solid fecal material, if possible.

The owner or owner whose guest causing the episode of gross fecal contamination of the spa will be responsible for any and all costs related to decontamination of the spa charged by the association’s pool maintenance contractor. Charges shall be added to the responsible owner’s association account, payable within 30 days of the billing.
